WINES

## fiano

*A stunning white variety originating from Campania in Southern Italy. With low yielding vines, smaller bunches and berries, this variety is heat tolerant, with high disease resistance and higher natural acid. A richer, riper style, resulting in a luscious, voluptuous wine.*

### **Production Notes**

Fruit was picked on flavour, waiting for some of the outer berries to achieve that sun-kissed look to ensure we captured the honey and citrus blossom flavours. As a general rule with our Fiano, we are looking for the richer, riper style, resulting in a luscious voluptuous wine.

Ferment was steady with natural yeast and high grape solids to maximise texture and character on the wine. After ferment the wine was aged on light yeast lees for 8 months to build the characteristic creamy palate. The wine was simply clarified and bottled before aging in glass until release.

### **Tasting Notes**

Another Southern Italian white variety now making a home in Australia. Vibrant green gold hues, aromas of lemon thyme, passionfruit and honeysuckle; flavours of honey and orange blossom with a creamy, luscious and lingering finish.
